

ALLEN Human Brain Atlas

ACKNOWLEDGMENT OF DONORS AND FUNDING ORGANIZATIONS

The Allen Human Brain Atlas was made possible through the Allen Institute for Brain Science's unique funding model designed to transform public, private and foundation funds into open community resources that fuel a diversity of breakthrough scientific discoveries.

The Allen Institute for Brain Science gratefully acknowledges the following contributors for their generosity and financial support of the Allen Human Brain Atlas:

Paul G. Allen

Mr. and Mrs. Richard Daly
Mr. and Mrs. Peter Eschenbach
Mr. William E. Fay, Jr.
Mr. Nathan Hansen
Mr. and Mrs. Richard Jernstedt
Bruce and Kathryn Johnson
Mr. and Mrs. Martin Koldyke
Michael and Suzanne Moskow
Bruce and Gwill Newman
Mr. and Mrs. Peter Pond
Anonymous Donor

Board Members, Brain Research Foundation

Mr. and Mrs. James N. Bayer, Jr.

Mr. and Mrs. Richard L. Joutras

Mr. and Mrs. Robert Lorch

Lee and Jeanne Zehrer

The project described was supported in part by award numbers 1C76HF15069-01-00 and 1C76HF19619-01-00 from the Department of Health and Human Services Health Resources and Services Administration. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Department of Health and Human Services.

AUTISM STUDY

The Autism Study dataset was supported by a grant from the Simons Foundation (SFARI-07-08s) and a grant from Autism Speaks (supplement to #4987), both awarded to Dr. Eric Courchesne with sub-awards to the Allen Institute for Brain Science.
