

Downloading an Ontology's Structure Graph

DOWNLOADING AN ONTOLOGY'S STRUCTURE GRAPH

- [Prototype](#)
- [Examples](#)
- [Parameters](#)
- [Returns](#)

Allows downloading of an Ontology's StructureGraph as a JSON or XML document. Review the list of [Atlas Drawings and Ontologies](#) to determine the relevant StructureGraph's ID.

Prototype

```
http://api.brain-map.org/api/v2/structure_graph_download/[StructureGraph.id].[xml|json]
```

Examples

Download the Mouse Brain Atlas Ontology's StructureGraph (StructureGraph id=1):

```
http://api.brain-map.org/api/v2/structure_graph_download/1.json
```

Download the Human Brain Atlas Ontology's StructureGraph (StructureGraph id=10):

```
http://api.brain-map.org/api/v2/structure_graph_download/10.json
```

Parameters

filename	Integer	StructureGraph.id
file extension	String	.xml or .json format.

Returns

A hierarchical XML or JSON document containing each of the Structures in the requested StructureGraph with the following:

parent_id	ID of the parent Structure.
children	1..n descendants of the Structure
