## Documentation for BrainSpan

<table>
<thead>
<tr>
<th>Document</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Developmental Transcriptome</td>
<td>Overview of methods for transcriptome profiling</td>
</tr>
<tr>
<td>Prenatal LMD Microarray</td>
<td>Overview of methods for prenatal laser microdissection microarray analysis</td>
</tr>
<tr>
<td>In Situ Hybridization</td>
<td>Overview of methods for ISH studies</td>
</tr>
<tr>
<td>Gene List</td>
<td>Complete list of ISH genes and corresponding anatomical structure(s) with ISH data available</td>
</tr>
<tr>
<td>Reference Atlases</td>
<td>Overview of methods for the reference atlases</td>
</tr>
<tr>
<td>Developing Human Brain Imaging</td>
<td>Overview of methods for structural and connectional imaging data</td>
</tr>
<tr>
<td>Ontology and Nomenclature</td>
<td>Rationale and sources for the ontology and anatomical nomenclature</td>
</tr>
<tr>
<td>Donor and Sample Metadata</td>
<td>Metadata for donors and samples</td>
</tr>
<tr>
<td>Acknowledgements</td>
<td>The many people and organizations that have contributed to this project</td>
</tr>
</tbody>
</table>
